

Declaration of Conformity
according to the
Low voltage directive 2014/35/EU

Hereby we declare that the Netter frequency controls

Series SRF

are conform to the requirements of the directive referred to above.

The Netter frequency controls series SRF are used for speed control of electric external and internal vibrators. The frequency controls generate constant three-phase voltages with frequencies from 0.5 to 500 Hz. This enables simple control of the speed of electric vibrators.

Further applied directives and harmonised standards are:

EMV directive 2014/30/EU

DIN EN 60204-1:2019-06

DIN EN 60529:2014-09
